Sprayer: **LG 400 ATV Trailer**

The **400 LG Trailer** is the ideal sprayer for those growers wanting big results and performance from a commercially built, heavy duty sprayer. Its slim design and lightweight features make it the best choice for those customers wanting to spray on high density plantings or on very wet/boggy ground. It is available in a PTO version or engine drive. The 400 LG Trailer is the ideal choice for the vineyard, berry or nurseryman.

Features:

- Tank capacity: 106 U.S. gallons
- 20" diameter fan
- Built-in clean water hand wash safety tank
- Hinged tank lid with basket strainer
- External tank level sight gauge
- White high density polyethylene tank
- Annovi Reverberi/Hypro diaphragm pump
- Annovi Reverberi controller
- Left and right manual shutoff control valve
- Large 1-1/4" suction strainer
- Braglia brass single swivel rolover anti-drip nozzle bodies
- TeeJet stainless steel Hollow Cone D4 spray tips (spare set included)
- TeeJet brass DC45 core
- Hot galvanized frame
- Fan disconnect
- Bypass tank agitation
- Shipping Weight: 675 lbs
- Shipping Dimensions: 97" L x 49" W x 62" T
