

Sprayer: **Single Cannon**

Models: **C3 MK 1000**

SAE Cannon Sprayer, is a highly versatile implement when trying to apply herbicide or pesticide where a conventional sprayer cannot work.

The **SAE Cannon's Model C3** delivers a highly concentrated high stream to a targeted area. The C3 Cannon can reach distances up to 100 ft horizontally and 80 ft vertically.

Popular crop applications include all types of vegetables, blueberries, strawberries, sweet corn, container and tree nursery applications.
