Sprayer: Skid Mounted

The **Skid Mounted Sprayer** is suitable for disinfection, pest control, street cleaning, weed control and a multitude of other sprayer applications. This unit comes with a dependable 6HP Subaru engine, AR30 (D30) high pressure diaphragm pump, AR GI40 pressure controller, sturdy medium density 119-gallon polyethylene tank and 300 feet of spray hose. Standard on all sprayers is an inline suction filter with an internal interchangeable cartridge and empty tank valve. There is also an external graduated scale on the tank for ease of tank level monitoring.

The tubular steel frame is epoxy coated ensuring durability and long life in harsh conditions. The frame acts as a self-supporting structure for the pump, engine, tank and accessories with built in fork pockets and conveniently located lifting eyes.

Features:

- 119 Gallon / 450L Tank
- AR30 Diaphragm Pump 9.3gpm @580psi
- 6HP Subaru 169cc Engine (with a 5 year Warranty)
- AR GI40 Pressure Controller
